## Rock The Walk

As you know, the last Rock The Walk for 2020 was cancelled due to the wet weather. You may enjoy reading the quote that was planned by the Recreation Committee - it was by Ralph Waldo Emerson: "Every ship that comes to America got its start from Columbus."

## Recent New Nursing Wing Tours

During two recent weekends, Health Care residents and their families toured the new Nursing Wing. Many individuals remarked how much they enjoyed seeing these new spaces. A number of these residents will move to the new wing when it opens this fall. Features of this wing include a private shower in each bathroom, larger square footage and windows, as well as built in closets and cabinetry.

Each of the two floors includes a beautiful sunroom (pictured left), enlarged in response to a resident recommendation, and enhanced with features that will permit it to be used year-round.

## Colors of Fall

Thank you, Art Englebardt, for this image of autumn on our campus. Maple trees provide such a burst of welcome color on grey days.
