*\* Numbers may change from those listed in a previous Update for reasons that include: the result of an individual's second test was 'non-detect' or the individual has recovered and met return-to-work requirements. The Pines is following CDC guidelines as to what represents an active COVID-19 case.*

The Independent Living resident in Poplar Hill (920's building) who tested positive for COVID-19 in January has recovered and completed a 14-day quarantine. Thus, this person is no longer listed in the Cumulative Active COVID-19 Cases section. We learned today that this resident's spouse tested positive for COVID-19. This person is not exhibiting any symptoms.

Additionally, several HC residents and staff have recovered from COVID-19 and thus, are no longer on the list.
