

A Few Changes Coming Down the Pike!

Beginning on May 16th, we are implementing three significant projects at the Wellness Center. We will be updating both of the locker rooms, the assisted shower room, and resurfacing the pool deck. We plan to replace all the flooring in the locker rooms, update the sinks, countertops, faucets and lighting. The same flooring will flow into the pool area. The total project will last approximately 4 weeks. As we work through the completion of the projects, there will be some closing of specific services we offer. Please follow the chart below to learn what and when services will be closed.

PROJECT:	Time period:	What is closed?	What is open?
Men's Locker Room	Monday, May 16 – Saturday, May 21	Men's Locker Rooms; Men will need to access the pool directly from the Hallway and will need to be prepared to swim at that time. After use of the water, men will need to towel off on the deck and redress or utilize a robe to exit the pool area. The Assisted Shower room will be available. It services one person at a time.	Everything else in the facility
Women's Locker Room	Monday, May 23 – Saturday, May 28	Women's Locker Rooms; Women will need to access the pool directly from the Hallway and will need to be prepared to swim at that time. After use of the water, women will need to towel off on the deck and redress or utilize a robe to exit the pool area. The Assisted Shower room will be available. It services one person at a time.	Everything else in the facility
Annual Facility Cleaning; Assisted Shower Room	Monday, May 30 – Thursday, June 2	The entire facility will be closed	Nothing will be open
Pool Deck Resurface	Monday, May 30 – Saturday, June 11	The POOL area will be closed	Everything else in the facility including Locker Rooms

The proposed schedule is designed to limit as much disruption as possible. Additionally, we will include our annual facility cleaning. The renovation will address our current maintenance issues and prevent anticipated future safety concerns. At the end of the project, we will have a safer and more beautiful environment to Age Well and Live Fully.

We appreciate your partnership and understanding.
