

Good News Update

“Reopening” of Waters Communities, Now Even Better! – July 6, 2021

To: Residents and Family Members

We are excited to share the good news that beginning the week of July 12th (specific date may vary by community) that *fully vaccinated* visitors are again welcome to dine with a *fully vaccinated* resident in our dining venues. We kindly request visitors to make a reservation 24-hours in advance to allow us the opportunity to best serve you, as well as monitor the number of diners at one time.

Please Note: Some communities may have a limitation on the number of guests allowed per resident due to state specific guidance, venue size, or special event. Please contact your specific Waters community to make your reservations.

More good news! *Fully vaccinated* visitors may participate in our engaging active life activities that are open to guests within the community. We request your support and compliance with infection control practices, including hand hygiene and wearing a mask, as guidance requires that visitors must still wear a mask while in the common areas of our communities.

We so look forward to you gathering again with your family member(s) in our Waters Communities!

Thank you for choosing to THRIVE with us at The Waters Senior Living!
